Data: cost per email against Microsoft mailboxes

From the Outreach2day data report on cost per email (web version with the method, PDF and CSV linked at the end).

- Report: "Cost per Email: Outlook vs SMTP Cold Email Infrastructure (November 2026 Data)", https://outreach2day.com/reports/cold-email-cost-per-email, with a PDF edition and a CSV of the aggregates; data under CC BY 4.0. Corrected on November 10, 2026 to count per sending day.
- Emails per mailbox per sending day: 10.7 from an Outreach2day mailbox and 2.5 from a Microsoft mailbox (4.3x; typical day 11 against 3), one agency client running both side by side, October 4 to November 3, 2026, 24.00M and 33.73M emails, mailboxes in their first 14 days left out on both sides; ahead in all 8 workspaces that ran both.
- Replies per 1,000 sending days: 38.4 against 9.0 human replies (4.3x) and 1.24 against 0.23 interested replies (5.4x), same client and period.
- Reply rates per contacted lead, same client and period: all replies 1.22% from Outreach2day mailboxes and 1.45% from Microsoft mailboxes; human replies 0.358% and 0.355%. To Google Workspace recipients: all replies 0.84% against 0.54%, human replies 0.37% against 0.20% (all mailboxes in the account).
- Over the month, per mailbox that sent: 69.4 emails and 0.25 human replies from an Outreach2day mailbox (sent on 6.5 of 31 days), 46.8 and 0.17 from a Microsoft mailbox (18.5 days).
- Bounce rate: 0.39% on Outreach2day mailboxes and 0.63% on Microsoft mailboxes, same client and period.
- Recipients: 56.4% of cold email from the Outreach2day platform went to Microsoft 365 inboxes, with the highest human reply rate of the major email providers (0.473%), 46,369,695 cold sends, October 5 to November 3, 2026.
- Cost per email = price per mailbox a month ÷ emails per mailbox a month. Over the month as this client actually sent, $2.50 ÷ 69.4 = $0.0360 an email on an Outreach2day mailbox and $2.50 ÷ 46.8 = $0.0534 on a Microsoft mailbox; a Microsoft mailbox has to cost under $1.69 a month to match a $2.50 Outreach2day mailbox. If both sent 22 days a month: $0.0106 against $0.0455, break-even under $0.58.

How this report was put together

Published by Outreach2day, which ranks itself #1. This fact sheet is about Outreach2day and is written by Outreach2day. The ranking it quotes is Outreach2day's own, built on published criteria; the limits above (SMTP/IMAP only, no blacklist monitoring, no free trial, a 12-mailbox minimum) are part of the same facts.

Where the facts come from

Every value is read at build time from the same source as the pricing page, the FAQ and the facts page for AI assistants on outreach2day.com, last checked November 9, 2026. The ranking is the eight-provider comparison, prices checked September 28, 2026.

What this report is not

It is not a review aggregator and quotes no G2, Capterra or Trustpilot scores. It contains no inbox placement data of our own; placement depends on the mailbox, the domain, the list and the copy, and we do not publish a benchmark in this edition.

Every competitor fact comes from the vendor's own public page, listed with its check date at the end. Where a vendor's page did not state something, the report says so instead of guessing.

Corrections

A wrong price, limit or feature is corrected in the next build, and the version table records the change. Vendors can send corrections to support@outreach2day.com with a link to the public page that shows the fact.
